

RSH

Plumb Line Fixture RSH

The plumb line fixture RSH allows for precise guidance of the plumb line in vertical and horizontal direction in combination with a pin extractor.

- Enormous time-savings for preparation of straight lines and right angles.
- Accurate alignment of the plumb line providing simple readjustment if required.
- The plumb line can be tightened precisely such as on rocky grounds or with pipe lines as the pin extractor can be moved.
- Durable surface protection by galvanizing.

Scope of delivery:

RSH: 1 clamping joint, 2 wing nuts and 1 cross rod with a length of 500 mm

Type	Diameter outside mm (in)	Dead Weight kg (lbs)	Order-Number
RSH	5 – 20 (0.20 – 0.79)	0.8 (1.76)	51800081

SA

STRING ALONG SA

The brilliantly simple and flexible line holder for all setup work performed with a plumb line.

The STRING ALONG SA is simply slipped over the pin and fixed to the peg at the desired height with the wing screw. Now the line can be looped around the line holder at any time and attaches itself to the teeth in the two grooves of the SA.

If necessary, the cord can be removed at any time without losing the height adjustment.

- Generally the SA can be used for all kind of layouts where string lines are used, especially beneficial if the string line has to be taken away temporarily and repositioned afterwards at the same position.
- Gripping teeth hold the string line safely under tension at any time.
- No more string line knots, or confusing marks on the pins.

Scope of delivery:

SA: Pieces 6 in bag.

Type	Description	Diameter inside mm (in)	Dead Weight kg (lbs)	Order-Number
SA	Suitable for pin diameters max. 25 mm (1 inch)	25 (0.98)	0.24 (0.53)	51800062
