

Attachments for Vacuum Lifting Device SH/POWERJET PJ

For different jobs we recommend special suction plates. All suction plates can be changed by means of a quick release coupling (modular principle). The carrying capacities depend on the size of the suction plate.

Suction Plates SPS for Lifting Device SH/POWERJET PJ

Suction plates for profiled surfaces (e.g. pipes) are available on request. Suction plates are obtainable in all sizes on request.

The Probst special foam-rubber seal is suitable for all types of materials:

- Particularly good with uneven surfaces.
- Extremely durable.
- Changed in a flash: take the old one off, put on the new one – finished!
