Setting Up Device for Manhole Rings AG

Two separate hydraulic circuits are needed on the side of the fork lift truck.

- Makes the production of manhole rings more efficient, as the rings and cones are gripped and lifted and set up hydraulically.
- As no radial pressure is exerted on the rings, green products can be safely handled.
- The setting up device can be used to transport and lift rings and cones.

Type	Diameter Nominal Diameter mm (in)	Dead Weight kg (lbs)	Hydraulic Connection Pressure bar (psi)	Working Load Limit/WLL kg (lbs)	Order-Number
AG	500 – 1,200 (19¾ – 47¼)	425 (940)	180 – 210 (2,611 – 3,046)	1,500 (3,300)	57200042
AG-S	625 – 1,200 (24½ – 47¼)	680 (1,500)	180 – 210 (2,611 – 3,046)	2,000 (4,400)	57200043
