

SVZ-ECO

Manhole and Cone Installation Clamp SVZ-ECO

The SVZ-ECO is the right choice for sole installation of manhole bases and rings (round and square) and cones or round well rings.

- Can be operated solely by the excavator driver due to integrated trip mechanism for fully automatic switching between gripping and release.
- Self-tensioning steel claws ensure secure gripping.
- Lightweight and budget-priced.
- Durable surface protection by galvanizing.

Type	Diameter Nominal Diameter mm (in)	Dead Weight kg (lbs)	Working Load Limit/WLL kg (lbs)	Order-Number
SVZ-ECO	800 / 1,000 (31.49 / 39.37)	52 (115)	1,700 (3,748)	54000032

SVZ-ECO-L

Manhole and Cone Installation Clamp SVZ-ECO-L

Compact and extremely robust clamp for manhole rings and cones. Moreover, rectangular manholes can also be transported and installed.

- With positioning aid for quick and reliable positioning of the clamp in the manhole elements.
- Manhole elements, even cones, hang completely level due to movable suspension.
- Automatic release for fully automatic switch over from „full“ to „empty“.
- Safe gripping due to autonomously retensioning steel grip clamps.
- Durable surface protection by galvanizing.

Type	Diameter Nominal Diameter mm (in)	Dead Weight kg (lbs)	Working Load Limit/WLL kg (lbs)	Order-Number
SVZ-ECO-L	625/700/800/900/1,000/1,050/1,200 (24.60/27.55/31.49/35.43/39.37/41.33/47.24)	85 (187)	2,000 (4,409)	54000034
