

FTZ-MULTI-15

Grab for Prefabricated Concrete Products FTZ-MULTI

Mechanical grab. Appropriate clamp configurations for versatile applications from a modular construction system.

Same features as per FTZ-I/UNI.

FTZ-MULTI-15: Basic unit without grippers

- Extraordinary large gripping range, thus suitable for gripping nearly all kind of standard concrete elements and natural stones.
- The individual modules are available separately and hence a huge range of applications can be covered at a reasonable price.
- Durable surface protection by galvanizing.
