## FLIEGUAN-ACCU-HANDY FXAH-120-GREENLINE

Designed for landscape contractors and tilers, for quick and ergonomic lifting, moving and laying of absorbent concrete slabs, natural stones, tiles and other absorbent building materials.

ACCU-HANDY is placed on a slab or tile, switched on, and then sucks onto the surface without any downward pressure. The vacuum is released again by pressing another switch.

- Considerably easier laying, as there is no need to grip on the side, especially for the last slab.
- Less risk of edge damage, as laying is more precise and with a better view.
- Light and handy.
- Fast suction due to high air volume flow.
- Ergonomic arrangement of the operating switches.
- Powered by a rechargeable 14.8 V lithium-ion battery. (exchangeable battery concept)
- Battery life: approx. 1.5 to 2 h in continuous operation, in normal operation up to one day.
- Increased safety through battery status LED.

### Scope of delivery

**FXAH-120-EU-GREENLINE:** Vacuum hand laying device, Charger (multi-range voltage 110 V to 240 V)  
2 x lithium-ion battery, carrying strap, spare rubber seal and replacement filter.

For EU market:

**FXAH-120-EU-GREENLINE:** Plug-Type C, 230 V. Manometer with negative pressure display. (Bar)

For UK market:

**FXAH-120-UK-GREENLINE:** Plug-Type G, 230 V. Manometer with negative pressure display. (Bar/PSI)

For north american market:

**FXAH-120-US-GREENLINE:** Plug-Type A, 110 V. Manometer with negative pressure display. (PSI)

**FXAH-120-SOLO-Set:** Hand carrying handle with adapter for one person. For ergonomic moving and laying of building materials. Release operation via foot pedal.

**FXAH-120-DUO-Set:** Hand carrying handle with adapter for two persons. For ergonomic moving and laying of building materials. Release operation via foot pedal.
