

VM-X-PAVERMAX

\*Paving machine VM-X-PAVERMAX premium with laying clamp HVZ-UNI-II

## VM-X-PAVERMAX 360° panoramic view meets maximum laying comfort

May we introduce: VM-X-PAVERMAX, the new reference class in paver laying machines. It combines a completely new sense of space with pioneering technologies—and makes work more comfortable and efficient than ever before.

All we need to say is: 360° panoramic view with full glazing. Sensational stability with a load capacity of up to 700 kg. And, on request, a wide range of automatic programs for even more efficient laying of all standard interlocking block laying units.

**VM-X-PAVERMAX premium:** Fully equipped with all comfort and automatic features, such as adjustable comfort seat with air suspension, heated seats, decoupled comfort cab, 5" touch screen and articulated boom.

### There are many reasons to choose the VM-X-PAVERMAX

**Hydraulic endless rotary head:** Position stone layers without restrictions thanks to the 360° endless rotary head.

**Pendulum damping:** Reduces strong vibrations of the attachments and increases the laying comfort.

**Articulated boom with two joints:** Enables a pickup height for picking up two packages stacked on top of each other (up to 71 in).

**Windshield wiper:** Clear view of the laying area even in the rain.

**Decoupled cabin:** Even fewer vibrations noticeable in the interior.

**Panoramic rear window:** Full visibility not only to the front, left and right: thanks to the curved rear window, you also have an optimum view to the rear.

**Wide range of attachments:** Paving stones, curbs or large format patio slabs—no problem with the right attachments.

**Vent window:** The front windshield's popout window provides good air circulation and helps with communication with colleagues in the laying area.

**Easy to maintain:** All parts relevant for maintenance are freely accessible.

Type	Description	Dead Weight lbs (kg)	Order-Number
VM-X-PAVERMAX premium	Fully equipped with all comfort and automatic features, such as adjustable comfort seat with air suspension, heated seats, decoupled comfort cab, 5" touch screen and articulated boom	3,530 (1,600)	51500025
VM-X-PAVERMAX comfort	Equipped with fully enclosed, decoupled comfort cab, standard adjustable seat with mechanical suspension, 2.4" screen and standard boom	3,530 (1,600)	51500026
VM-X-PAVERMAX standard	Equipped with partially enclosed, decoupled operator's cab, standard adjustable seat with mechanical suspension, 2.4" screen and standard boom	3,310 (1,500)	51500027
VM-X-PAVERMAX basic	Entry-level model with partially enclosed operator's cab, standard adjustable seat with mechanical suspension, 2.4" screen and standard boom	3,200 (1,450)	51500028
